

RATPAC 12 X 2.4kW V3 20 INCH DIMMER

Our whisper quiet flagship dimmer: re-designed with built-in ghost load.

The 12x2.4kW flagship dimmer is equipped to deal with today's challenges. Now compatible with almost all 120v LED tubes and small incandescent loads thanks to a first-ever internal 'ghost load.'

Ratpac's new ground-up design includes: new inductors to reduce line noise, isolated switching and more. Of course we kept the features crews have come to rely on: hoisting points, stackable design, whisper-quiet operation, bump buttons, dim/non-dim options, simple DMX addressing and built-in wireless DMX control. All products are ETL/CSA listed. Quality, reliability, and innovation, built to meet the toughest demands.

TECH SUPPORT

RATPAC 12 X 2.4 kW 20 INCH DIMMER

INPUT: 120/208 VAC 3 PHASE E1016 CAMLOK
OUTPUT: 2 SOCAPEX, 12 CHANNELS,
2.4 kW PER CHANNEL

DIMMING DEVICE

120 VAC 20 A SOLID STATE RELAYS

OVERLOAD PROTECTION

20A RESETTABLE BREAKERS

CONTROL

DMX 5 PIN INPUT & OUTPUT XLR
WIRELESS: CRMX RECEIVE OR TRANSMIT

CONTROL

- MANUAL BUMP BUTTON, BI-COLOR INDICATED
- DIM/NON DIM DIP SWITCHES
- SELF-TERMINATING DMX STATUS QUO
- MULTI-CHANNEL ELECTRONIC GHOST LOAD IMPROVES DIMMING STABILITY FOR LOW WATTAGE INCANDESCENT BULBS & DIMMABLE LED FIXTURES
- NEW INDUCTORS INCREASE DIMMING RELIABILITY WHILE REDUCING NOISE
- ISOLATED SWITCHING HELPS ELIMINATE LAMP FLICKER

DIMENSIONS

8" H x 20" W x 20" D
WEIGHT: 63 LBS

MODEL

531.0133.003.0A

"QUIET ON SET."
